

GENI

Future GEC Brainstorming

Mark Berman
March 19, 2014
www.geni.net

- Begin a conversation about the most effective way to conduct GECs going forward
 - Immediate future: discuss some planned changes for the upcoming GEC20 in Davis, based on survey feedback
 - Mid-term: Plan the next several GECs
 - Longer-term: Look forward to the best way to gather the community when GENI moves past its current intensive development phase and is more user-driven
- Useful things to say during this session (or in the ensuing months)
 - “This aspect of GEC is / isn’t working well for me.”
 - “GECs would be better if”
 - “I want to join a working group to redefine GEC going forward.”
