

NYU-Poly WiMAX Deployment Status

✓ Operational OMF/OML installation

- Created OML-ized applications that may be useful to other sites (VLC, BitTorrent client, HTTP server and client)
- More under development, e.g. OMF driver for Teltonika WiMAX devices

✓ Testbed open to experimenters since GEC12

- Register at <http://witestlab.poly.edu>
- Experimenter outreach with tutorials at GEC13, Tridentcom, GEC14

✓ Connected to I2 backbone network

- New *wimaxrf*
- Multi-site capability demonstrated at demo night, tutorial

✓ Extra capabilities and tools

- Environmental sensors (temperature, humidity, light)

Testbed Utilization Since 01/2012
