

# ORCA Anacortes 1.2

ORCA Dev Team

Aydan Yumerefendi, Yufeng Xin, Dan Evans,  
Varun Marupadi, Anirban Mandal

# Anacortes 1.2 Overview

- **Bug-fix release – no new features**
- **Modified (improved) configuration process**
  - Various configuration properties residing under local/ have been merged into \$ORCA\_HOME/config/container.properties
  - The actor XML file now contains only information needed to automate the installation of Orca actors and to define their topology.
  - <global> section has been eliminated (properties moved into container.properties)

# Anacortes 1.2 Overview

- Logging standardized on log4j instead of `orca.util.LoggingTool`
- The `ContainerManager` class is gone and it has been replaced by `orca.shirako.container.Globals` and `orca.shirako.container.OrcaContainer`.
- Recovery is triggered automatically on boot

# Anacortes 1.2 packaging and documentation

- Experimental support for DEB and RPMs for node agents
- Experimental support for ORCA DEB
- Improved documentation
  - [ORCA Architecture and Internals](#)
  - Static docs available from <https://geni-orca.renci.org>
  - Release notes on wiki

# Future releases

- **Feb 1, 2010 – Bella 1.1**
- **Jun 1, 2010 – Bella 1.2**
- **Oct. 1, 2010 – Bella 1.3**
